We are immediately ready to sell the above six polished and tested chocolate bars. We promise to expand our offer with new flavors and types of tablets. But we don't want to stop there! We already have many tests and implementations behind us. We already wish to present four more products on which work is already being completed. We invite you to contribute to the next Las Vegan's vegan products development.

Manufaktura Czekolady Chocolate Story stands firmly behind the Las Vegan's project. A Polish pioneer in the production of artisanal chocolate, using the bean to bar method. The factory is located in Łomianki city, near Warsaw. A company with an established position on the market, founded in 2009 by two colleagues - Tomasz Sienkiewicz and Krzysztof Stypułkowski - who then abandoned work in a corporate world and started producing real chocolate. Without semi-finished products and enhancers, with a clean ingredients list and real flavor. In 2017, Marcin Parzyszek, a manager with 20 years of experience in the confectionery market joined the company's management board.

After several years of joint activities, in 2020 we decided to create a new brand of vegan chocolate - Las Vegan's. The innovation of our idea was based on the use of only ecological raw materials in the production of vegan chocolate and the packaging in which it will be sold.

The introduction of Las Vegan's to the market would not have been possible without the successful crowdfunding campaign for the amount of PLN 999,999 carried out on the Crowdfunder platform, from November 24 to December 13, 2020.

Thanks to the cooperation with the Good One PR agency, 180 mentions of the crowdfunding campaign appeared in the media in just 2.5 months of operation. Finally, 361 people believed in our project and bought shares with a total value of PLN 999,999 - 5 days before the planned end of the campaign. The media of various profiles wrote about the Las Vegan's share issue, incl. Forbes, Puls Biznesu, Parkiet, Onet, Wegetarianie.pl, Viva.pl and others.

Effective engaging, sweet communication campaign of Las Vegan's vegan chocolate crowdfunding action won 1st place in the „Effectiveness of the year” category and a distinction in the „PR innovation of the year” category in the PR Wing's industry competition of 2021!
